We get a lot of people asking us, "What is **'natural'** wine?" You've read the ingredients list on the back of your groceries before, right? Imagine if wine were required to have the same kind of list. Ammonium bisulfate, chitosan, carboxymethylcellulose, to name a few things allowed in conventional wine. Natural wines have a very short list: grapes, naturally occurring yeast, and sometimes a little sulfur. **Natural wine is just the good stuff**, born from the earth and lovingly shaped into wine by the vigneron (grape grower and winemaker).

Organic production is the standard we hold all of our wines to.

Certification in organic farming isn't a necessity, as long as the producer is committed to the practice. We also source our wines from sustainable producers who use minimal fertilizer or pesticides only when necessary. While 'sustainability' is a broad spectrum, we take all efforts into consideration when we select wines.

Our favorite wines come from **biodynamic** producers. Biodynamics is a farming science and philosophy courtesy of Dr. Rudolph Steiner. It's rich in complexity, but to sum it up, the winemaker treats the vineyard and the surrounding area as one large ecosystem. All things are considered: insects, animals, other vegetation, and even the phases of the moon. Biodiversity and minimal intervention are the main goals. **These wines truly speak from the Earth and give the word 'terroir' meaning.**

If you have any **questions** about a particular wine, farming styles or just looking for suggestions on what we are digging right now, **just ask!**

- FRANK KINYON, **BEVERAGE DIRECTOR**

BUBBLES CLASSIC SPARKLING

Traditional sparkling wines made via charmat or méthode champenoise.

chardonnay, etc.

BILLECART-SALMON

blanc de blancs grand cru 'cuvée louis,' champagne, fr 2008 **430.**

CHAVOST *chardonnay/pinot meunier even split, zero dosage, zero added sulfites

SKIN CONTACT WHITE DIP YOUR TOES

(aka Orange Wine)

While white wine is made with zero skin contact, orange wine is made when white grapes rest with their skins for a prolonged period. This process adds tannin, texture and new aromas; seriously fun and can lead to interesting food pairings. The following wines are best for the uninitiated or for easy drinking.

chenin blanc

INTELLEGO

'elementis,' swartland, za 2020

88.

MOTHER ROCK

'liquid skin' swartland, za 2021

70.

goruli mtsvane

TEVZA **awesome salinity, almost reminiscent of seaweed, wrapped in melon and apricot fruit*
'crazy amber,' kartli, ge 2020

80.

gewürztraminer

BLOOMER CREEK

skin contact, finger lakes, ny 2021

76.

malvasia, etc.

ANCESTRAL **mineral driven orange blend from a tiny island north of sicily, done in amphora*
'vino III,' salina, it 2022

76.

COTAR **4-10 days on skins in barrel, zero SO2, a stunner that will make you buy more slovenian wine*
'malvazija,' kras, si 2020

108.

petit manseng/grenache blanc

78.

RED STRUCTURED

These are wines with a strong presence of tannin. Tannin is a characteristic of red wines (and orange) that causes a drying affect on your palate. This can be harsh if the wine is sipped on its own, but add in fatty, rich food and you've got a glorious combination.

RED FUNKY

What is funk in a wine, you ask? It's brett (brettanomyces), a particular strain of wild yeast that can sometimes effect natural wines. There are those who love it and seek it out. For those unfamiliar, think barnyard, wet wool, band-aids, acetone, etc.; ranging in intensity from wine to wine. Traditionalists would say these are flaws, but in natural wine, mother nature does what mother nature wants.

barbera/bonarda
